I had a two months internship under Erasmus+ in London as a confectioner and I liked it a lot! The staff was very helpful and friendly. I worked together with other students and we became best friends spending our free time together and exploring London.

João, student, Portugal

For me and my colleagues Idea-M organised visits to several schools in London. It was very interesting to observe lectures and to analyse different teaching methods. During the free-time we visited Big Ben, London Tower and other attractions of the city.

Rita, VET teacher, Lithuania

Mobility in London was a great opportunity for me. As a logistics student I gained valuable experience and improved my professional skills. As a person I gained self-confidence and cultural awareness. I have also received Europass and obtained ECVET credits.

Susanne, student, Germany

Together with my automotive classmates I participated in Erasmus+ internship in London. I was provided with accommodation, local transport pass, shopping cards and so on. Because of Idea-M staff support I could easily focus on my objectives: to learn and to improve.
